**DETAILED ACTION**

***Allowable Subject Matter***

1. Claims 1-32 are allowed.
2. The following is an examiner's statement of reasons for allowance: Ishii et al (US 7095363) does not teach (claim 1, 9, 17, 25) a variable period pulse generator including a direct digital synthesizer which outputs a signal having a frequency corresponding to frequency data specified from the outside, a first pulse whose level shifts in a predetermined direction as the transmission trigger at a reference timing and when the pulse shifts in the opposite direction triggering the reception, delaying the reception trigger by an arbitrary lapse of time with respect to the transmission trigger signal in order to give delay time, and a frequency varying section which includes the relationship between transmission and reception stored (claim 9 and 25) a fixed delay circuit.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
